

Mendocino

DIRECTIONS:

- The Grow formula is primarily designed for the vegetative stage, supplying additional nitrogen for vigor and growth.
- Agitate before use, add Micro to water first, then mix, then add Bloom or Grow mixing between each.
- This formula contains pH buffers for primary nutrient and magnesium availability.
- Use ppm meter to monitor strength of nutrient solution. Discard and replace nutrient solution every 7 to 10 days, to avoid nutrient imbalances.
- Maintain pH of nutrient solution between 5.6 and 6.5. For best results use Grow More 30% pH Up and Down solution to maintain ideal pH of nutrient solution.
- To ensure a homogenous mix of nutrients it is best to pre-mix or pre-dilute nutrients in small amount of water prior to adding to your nutrient tank. Adding concentrated nutrients directly to the tank may create unwanted pockets of nutrient concentrate.
- Refer to the "Basic Dilution Program" for guide to combine nutrients, decrease nutrient concentration at first signs of stress or shock or if growing in a very warm environment.

BASIC DILUTION PROGRAM

	GROW mL/Gal	MICRO mL/Gal	BLOOM mL/Gal
Seedlings and Cutting	.25	.25	.25
All Purpose Basic Vegetative	5	5	5
Vigorous Vegetative Growth	15	10	5
Bloom Transition	10	10	10
Flowering and Blooming	5	10	15

These dilution rates are projections without the use of additives. Please consult www.growmore.com when using additives for complete Feed Schedules.

NET CONTENTS: 1 GALLON (3.78 LITERS)

Manufacturing agricultural, horticultural and hydroponic nutrients since 1974.

- Research & Development
- Consumer Research
- Innovation

Constant achievement through applied research has been our motto since 1918 and provides the basis for dedicated product quality.

GUARANTEED ANALYSIS

Total Nitrogen (N).....	2.00%
0.25% Ammoniacal Nitrogen	
1.75% Nitrate Nitrogen	
Available Phosphate (P ₂ O ₅)	1.00%
Soluble Potash (K ₂ O)	6.00%
Magnesium (Mg)	0.50%
0.5% Water Soluble Magnesium	

Derived from: Ammonium Nitrate, Magnesium Nitrate, Potassium Nitrate, Potassium Carbonate, Potassium Phosphate & Potassium Sulfate

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

CAUTION:
KEEP OUT OF REACH OF CHILDREN
DO NOT SWALLOW
